

MAKING THE FUTURE: Missouri has a rich history in aerospace, from Charles Lindbergh, to the Mars Missions, to the International Space Station. Today, Missouri leads the way in every aspect of military aviation and equipment.

CENTER OF EXCELLENCE: Missouri builds the EA-18, F-15, and T-7 fighter jets; the MQ-25 unmanned refueller; composite parts for the 777X; and a huge array of military ordinance.

HIGHLY SKILLED: Missouri is home to highly skilled talent that delivers significant production for Boeing and other aerospace and defense industry leaders across the state.

STRATEGICALLY LOCATED: Missouri is located in the center of North America, with access to raw materials, available talent, and a globally connected infrastructure, making us the strategic location choice for companies.

CONNECTED TO EVERYWHERE: Missouri exports more than \$14 billion in manufacturing products annually to more than 190 countries around the globe.
