

GLOBAL LEADER: Oracle Cerner, Centene, and Express Scripts are all companies synonymous with Missouri's reputation in health innovation. Pfizer's site in Chesterfield, Missouri – about 500 employees in total – played a critical role in developing and manufacturing a key component of the Pfizer COVID-19 vaccine. These companies, and others across the state, are remaking the health industry.

HIGHLY SKILLED: Missouri's pharmaceutical and bioscience industry employs nearly 58,000 highly skilled individuals within more than 5,300 companies.

HEALTHY PIPELINE: 40 Missouri colleges and universities offer bachelor's degrees or higher in biological or biomedical sciences.

HEALTHY INNOVATION: Cutting-edge biomedical research is taking place across Missouri, in world-renowned research hospitals and innovation districts such as the Cortex Innovation Community and the Missouri Innovation Center.

INVESTING IN HEALTH: Missouri is committed to investing in health innovation with both private and public funds being invested in this growing sector.
